Our Company (http://gleamagroproducts.com/about_us.html)

Gleam Agro Products, a division of the Gleam Group endeavors to provide excellent varieties of top-quality agro products. With the main motive of complete customer satisfaction, the Gleam Group has emerged as a huge contributor, providing a great deal of top notch services. Along with providing the services in agro products, Gleam group also provides services in education, retail, tourism, real estate, and healthcare etc. Gleam aims at providing a hub of superior services by adopting advanced and varied technology. The efforts of Gleam Agro Products are directed at carrying out organic farming and producing a higher quality of tropical fruits and vegetables which can be grown in accordance with the Indian climate. These fruits, vegetables and organic products are produced after a long period of research, maintenance and cultivation of tropical vegetation. These agricultural products are cultivated in a special way so they ensure high yield.

vision

We aim to give a new meaning to commercial farming by carrying out advanced research on the tropical fruits and vegetables which can adapt according to the Indian soil and weather and thus, these can profitably be produced in India with our improved farming tactics.

mission

At Gleam Agro Products, our mission is to explore more profitable ways of growing tropical trees through our experience and expertise. We aim at the cultivation of improved and value added variety of tropical and organic products as we believe in clean and nutritional food.

developments

Thus, Gleam Group continues to thrive at producing better and better products with a mission of making India a hub of organic and tropical agricultural products. Our drive is to provide better and excellent services to our valuable customers for betterment of their health and wellbeing.

Who we are?

The Company was founded with the aim of promoting of Indian spices and foodstuff for domestic market and international market.

KIA Trading venture specialising in the manufacturing and supply of a large variety of food grains, flour , masalas and pulses to distributors, large retailers, Hotels, Restaurants, Caterers, branded supermarkets, to wholesalers and available for export market across the globe.

Owing to the legacy, stringent quality standards in food processing and relationship management, KIA Trading has earned its position as the most sought after brand by consumers, restaurateurs and retailers alike.

Vision - Across the globe, KIA Trading is committed to offer its premium products to its customers with food safety while making sure that all public health requirements are fulfilled. [HOME](#)[ABOUT US](#)[PRODUCTS](#)[FARM](#)[CONTACT US](#)

Cempedek

Cempedek is the common name given to Artocarpus Integer. Rich in numerous essential vitamins, minerals and phytopharmaceuticals packed in its edible part, the fruit is quite sweet, soft and flavorsome. It is well known for the health benefits that it provides.

Rambutan

Generally found in the native Malay- Indonesian Regions and Southeast Asia, Rambutan is a fruit, similar to Lychee or Longan. It is well known for the benefits of maintaining overall health as it is composed of rich amount of many essential nutrients and anti-oxidants that prevent many diseases.

Pulasan

Pulasan has its origin in Malaysia and is closely associated with Rambutan. It is popularly known for providing benefits to health, eyes and hair with its rich nutrients. The consumption of Pulasan also helps reducing body fat. It is juicier and is considered better in taste than Rambutan. It is usually eaten fresh.

Durian

Being the most expensive fruit of the world, Durian is considered as the 'King of fruits' in its native area of Southeast Asia. The fruit contains its distinctiveness in its unique shell, strong odor and large size. Durian contains rich quantities of essential nutrients like sugar, minerals, vitamins and dietary fibers.

FAQ

Q. Can KIA Trading ship spices to me under my own label?

A. Yes. As part of our private label business, we can pack for you under your label and offer a variety of packing options – See our packaging options.

Does KIA Trading ship only Indian ethnic seasonings and blends?

A. No, we have the expertise to create any type of seasoning or blend you require. We can either match a target sample or create an entirely new flavor or blend based on your brief.

Does KIA Trading ship only in bulk, or can I order spices for hotel and institutional use?

A. We are happy to provide service to hotels and other food service institutions. We have a variety of packaging options including 1 kg poly packs, in addition to our bulk packing. We can provide basic spices & blended spices including garam masalas and curry powders in our brand **KIA Trading** brand

–“ADARA”

If I have a problem with spices shipped to me, is there any way to trace the source of the problem.

A. Yes. Every product you buy out of **KIA Trading** passes documented quality checks. When there is a problem, our system is powerful enough to have traceability all the way back to the farmer from whom the spice was purchased

Can I have my label put on KIA Trading products ?

A. Yes. We would be happy to put your label onto our packs. With our variety of packaging, labeling and product options.

Export and Import : (Will share more Details)

Rice : All types of rice Available

Green Vegetables and Fruits

Sesame Seeds (Black Thil) The black sesame seed is less common and has a more concentrated flavor than other sesame seeds. Black sesame seeds are especially good on salmon and other fish. The natural black sesame seeds which we offer are carefully cleaned. We also offer two qualities of black sesame seeds – General and Z-Black (deep black), both are color-sorted and hence does not include white seeds

Sesame Seeds (White Thil) We export different grades of Hulled sesame seed in terms of purity 99.98%, 99.95% & premium quality exports with certification of free from microbiological organism. Mechanically hulled and mechanically dried sesame seed consists of the hulled seed from the plant sesame indicum L. The colour is white. Odour and taste are typical, and free from foreign odour and taste, such as mustiness or rancidity.

Purity 99.95% Min & 99.98% Premium Quality

Salmonella Absent in 25 grams

Yeast & Moulds < 1 0,000 CFU/ gram

TPC < 1 ,00,000 CFU/ gram

F. F. A. (as oleic acid) <2%

Chick Peas

Chick Peas has been widely acclaimed due to its tasteful flavour. We export chickpeas which is cleaned and processed before packing and transporting. Only the best of grains of pulses are selected and processed to the clients so that the taste of the food can remain authentic.

Oil (For Import)

Soybean Oil

Soybean oil is a vegetable oil extracted from the seeds of the soybean (*Glycine max*). It is one of the most widely consumed cooking oils. Per 100 g, soybean oil has 16 g of saturated fat, 23 g of monounsaturated fat, and 58 g of polyunsaturated fat.

Palm Oil

Palm oil is an edible vegetable oil derived from the mesocarp (reddish pulp) of the fruit of the oil palms, primarily the African oil palm *Elaeis guineensis*,^[1] and to a lesser extent from the American oil palm *Elaeis oleifera* and the maripa palm *Attalea maripa*.

Dal and Pulses :

Soyabean :The **soybean** or **soya bean** (*Glycine max*)^[3] is a species of legume native to East Asia, widely grown for its edible bean, which has numerous uses.

Green Gram (Mung bean)

The **mung bean** (*Vigna radiata*), alternatively known as the **green gram**, **maash**, or **moong**^[2] Sanskrit मुद्ग / mudga, is a plant species in the legume family.^{[3][4]} The mung bean is mainly cultivated in East Asia, Southeast Asia and Indian subcontinent. It is used as an ingredient in both savory and sweet dishes

Black Gram

Black gram originated in India, where it has been in cultivation from ancient times and is one of the most highly prized pulses of India and Pakistan. It is very widely used in Punjabi cuisine and is often referred to as *maah di daal* in the native language by Punjabis. The Coastal Andhra region in Andhra Pradesh is famous for black gram. The Guntur District ranks first in Andhra Pradesh for the production of black gram. Black gram has also been introduced to other tropical areas such as the Caribbean, Fiji, Mauritius, and Africa, mainly by Indian immigrants.

Red Gram :

The **pigeon pea**^[1] (*Cajanus cajan*) is a perennial legume from the family Fabaceae. Since its domestication in the Indian subcontinent at least 3,500 years ago, its seeds have become a common food in Asia, Africa, and Latin America. It is consumed on a very large scale in South Asia and is a major source of protein for the population of the Indian subcontinent. It is the primary accompaniment to rice or roti (flat bread) and has the status of staple diet throughout the length and breadth of India.

White Gram : Chickpea is a key ingredient in hummus and chana masala, and it can be ground into flour to make falafel. It is also used in salads, soups and stews, curry and other meal products like channa. The chickpea is important in Indian and Middle Eastern cuisine.

Kidney bean : The **kidney bean** is a variety of the common bean (*Phaseolus vulgaris*). It is named for its visual resemblance in shape and colour to a kidney.
